

**Beyond the numbers**

**Business, accounting  
and tax advice that  
goes to the heart of  
your business**

## Always with you

Each stage of the business life cycle is different. From start-up and growth through to maturity and succession planning, each phase presents its own set of challenges. With Studio Alessio as your partner for the journey, you will always have specialist expertise there to help you take your business on to the next stage.

## Our approach to your problem

To help you to reach your **fiscal, commercial or accounting** target:

**We listen:** to understand you and your situation. Only then can we give the most insightful and appropriate advice.

**We support:** we care about your success and want to support you over the long term to achieve your ambitions.

## Services for businesses

As well as helping you comply with increasingly complex tax legislation, we'll work by your side to develop the most appropriate plan for you and your business with our advices relating to:

- **Accounting**
- **Tax**
- **Business**
- **Foreign relations**
- **audit**
- **risk management**
- **fiscal plan and tax compliance**
- **exit and succession planning**
- **M & A etc.. (acquisitions, mergers, demergers, company transfers, corporate reorganization operations, corporate transformations, creation of corporate groups ..)**

We'll work by your side to develop the most appropriate plan for you

## Audit

- We'll ensure compliance with all relevant regulatory requirements, and offer robust independent opinion.
- Companies that don't need a statutory audit may still need an independent assessment of their affairs. We can provide reports for management.

## Services for your abroad business

If you are a company with ambitions to expand internationally, we can help you avoid making costly mistakes. Through our international associations we can help ensure your abroad business and expansion go smoothly.

We can help  
ensure your  
abroad business  
and expansion go  
smoothly
